

VAD DN15 Water Meter with Telemetry

Compliance appendix / footer-block master

Use this appendix as a separate attachment or extract the short footer block for the commercial datasheet.

Compliance appendix

Product scope	DN15 mechanical water meter platform with optional telemetry module.
EU legal framework	MID 2014/32/EU (MI-001) for water meters; RED 2014/53/EU for radio-equipped variants; CE marking framework applies.
Standards basis	Use EN ISO 4064 series for the metering function. Where the telemetry module is ancillary or additional functionality without metrological impact, EN 14154-4:2023 may be referenced accordingly.
Marking block	CE + MYY + notified body number + product identification + serial number + manufacturer details + environmental / ingress markings validated for the specific variant.
RED information block	For radio-equipped versions, state frequency band, maximum RF output power, intended use, restrictions if any and the DoC access route in the language(s) required for the intended market.
Declaration of Conformity	Recommended release wording: "EU Declaration of Conformity available at: www.vadsro.eu/... ".
Pending items before external release	Certificate number, notified body number, final Q1/Q2/Q3/Q4 and R-value, final radio characteristics, exact dimensions/thread/weight and final assembled-product IP rating.

MID 2014/32/EU (MI-001) water meter. Radio-equipped versions additionally fall under RED 2014/53/EU. CE + M marking and notified body number shall be applied only according to the approved conformity assessment route. EU Declaration of Conformity and certificate references: publish by URL / QR in the released version.
